

FREEDOM BESPOKE BUILT-IN FLOOR CONVECTOR PROJECTS (PART)

About Freedom Industry:

Founded in 1999, with more than 150 employees, over 60 technician staffs and a professional engineering team, we're the leading and the largest China-based company to focus exclusively on the sales, production and development of bespoke built-in floor convector, bespoke built-on floor convector, bespoke wall-mounted convector/vertical fan coil and LST convector. Our expertise is in customized HVAC units and turnkey HVAC solution.

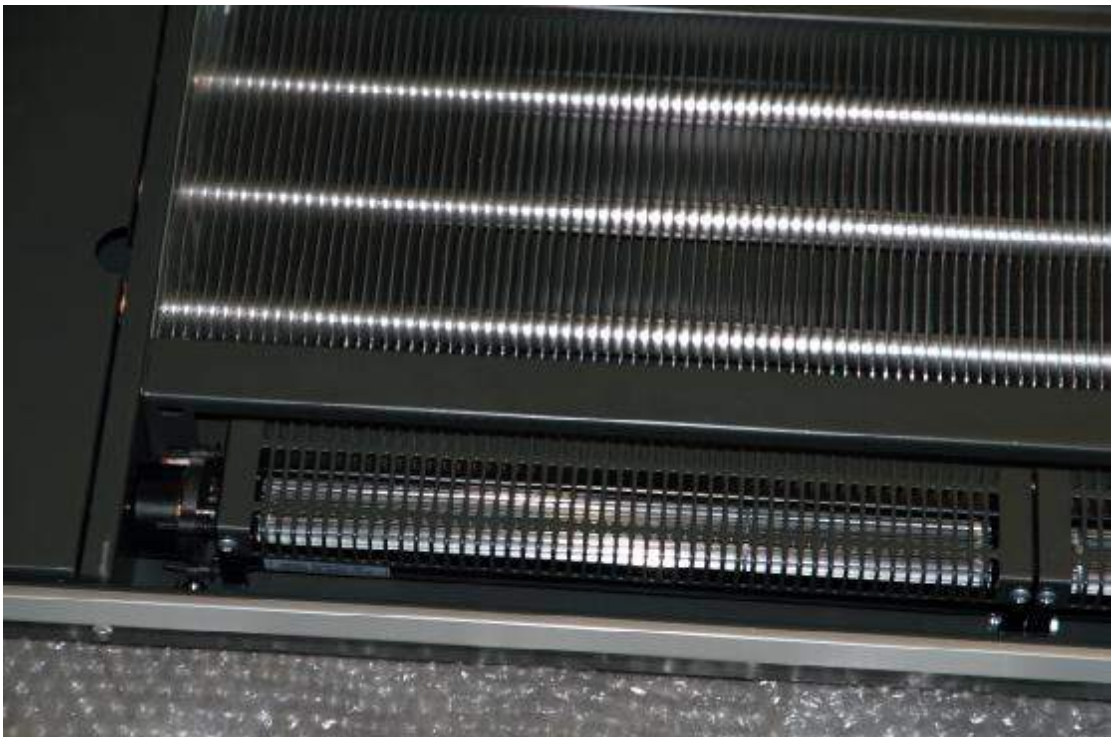

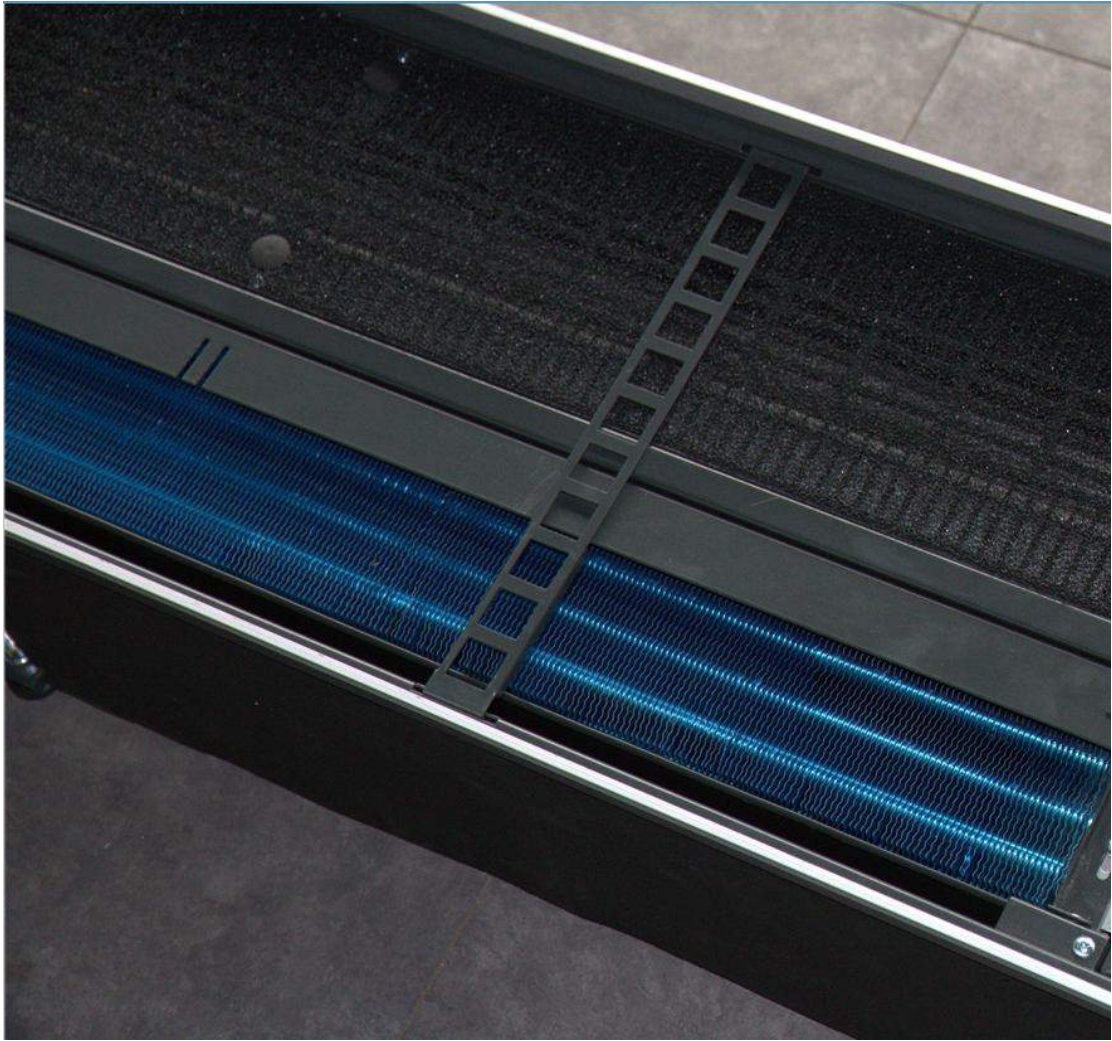

What solution we can provide:

The convector is an excellent solution and evenly-distributed air flow that can be used for primary and secondary heating, cooling and ventilation (fresh air system) for a comfortable room climate from floor duct or windowsill. Additionally, the convector can screen the falling cold air and prevent condensation in rooms where there're large area of glass, mainly for residential, commercial and industrial applications.
